### Playing fields

The original measurements of the Speed Court are two square fields with 5.5m each side, 12.8m apart. There are different ways to set up the playing fields.

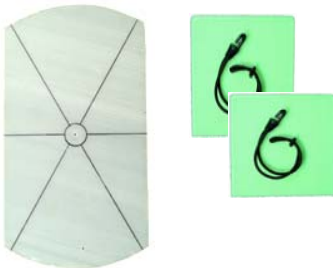

### Easy Court (Sale Only)

Our fluorescent Easy Courts are available for outdoor play and Blackminton. You can set them up individually or in a Star Court formation. Two adjacent pairs of courts permit doubles play. Space requirement: 25m length or circle with diameter of 25m for Star Court. Different options for affixing the corners are available, depending on the surface. No net required. Requirement for events: 2 Easy Court sets per tennis court for Blackminton and 3 sets for the Star Court

Fluorescent Easy Court playing field sets (2 per tennis court, 3 per Star Court)

**!!! Caution:** Sunshine reduces the fluorescence of the lines over time. Please do not use Easy Courts for Blackminton events as permanent outdoor day courts!

### Easy Court Accessories

**Sand anchors are needed to set up the Easy Court on sand.** A set consists of 8 sand anchor plates for the corners of the Easy Courts.

1 set of sand anchors, consisting of 8 plates with rubber clamps

**Angle chart** as setup assistance for 3 Easy Courts as a typical Star Court

Angle chart made of light cardboard

**Textile tape** is perfect for fastening the corners of the Easy Court to hard surfaces, such as indoor tennis facilities or gyms. Granulate from tennis courts can be brushed away easily.

Wide adhesive tape

### T-Lines for Tennis Courts

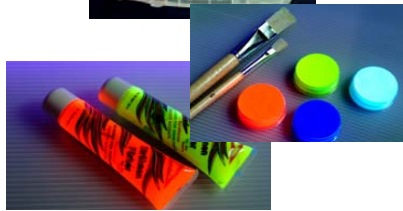

Just a few quick steps are required to turn a tennis courts into two Speed Courts, with the anti-static T-Lines from Speedminton® You extend the baseline to the sides. Contains all you need to play Speedminton on a tennis court. A set consists of two anti-static rubberized belts 5.5m each and four baseline extensions of 1.4m each.

Speedminton® T-Lines, Set of Rubberized Belts
